## LO STILE ATLANTIS®: DA 15 ANNI UNICO.

Dal 1995 Atlantis® si occupa solo di cappelli.

È stata una scelta vincente che ci ha fatti conoscere e apprezzare ovunque per qualità, ricerca, organizzazione.

In questo mondo che cambia siamo il punto fermo di chi cerca un cappello per farne un veicolo d'immagine per la propria azienda o creare una collezione moda.

Continuare a fare questo lavoro restando al passo con i tempi richiede anche un modo diverso di comunicare; il catalogo è solo un mezzo per avvicinarci sempre più alle vostre esigenze e aspettative di crescita in un mercato competitivo.

Quello che trovate all'interno è tutto il nostro mondo, quello in cui crediamo e per il quale dedichiamo ogni giorno la nostra passione e cultura.

Scoprite quanti cappelli siamo in grado di offrirvi dal nostro magazzino o direttamente dai nostri sourcing, come potete creare una vostra etichetta o realizzare da soli un cappello con il dss.

Non fermatevi alle apparenze, cercate la sostanza di chi offre un magazzino con più di 3 milioni di cappelli, consegne in Europa in 48 ore, la possibilità di fare ordini 365 giorni all'anno.

Ecco perchè lo stile Atlantis® è uno stile unico, da sempre.

## THE ATLANTIS® STYLE: UNIQUE FROM THE LAST 15 YEARS.

In this ever changing world we are a reference point for those looking for a cap to use as an image vehicle for their company or for creating a fashion collection.

We continue to do this work keeping in line with latest trends which moreover requests new strategies in communication; this catalogue is only one step to close the gap on your needs and expectations to grow in an ever more competitive market.

What you find inside is all our world, in what we believe in and what we dedicate all our passion, culture and days to.

Discover how many caps we are able to offer from our warehouse or directly from one of our sourcing points, how you can create your own label or make only one cap using our design suite software.

Don't stop at appearance, looking for something more, someone with a warehouse with more 3,000,000 pieces that delivers throughout Europe within 48 hours, and from whom it's possible to order from 365 days a year.

**DALLA TUA PARTE®**

Le nostre collezioni si basano su principi qualitativi per offrire prodotti sempre all'altezza delle aspettative, nei colori, nei tessuti, nei particolari. Per garantire tutto questo mettiamo a disposizione il nostro know how, la valutazione delle segnalazioni dei clienti, il controllo qualità all'origine e all'arrivo della merce. La continua collaborazione con i fornitori - e la nostra costante presenza presso di loro - genera controlli statistici sulla merce in partenza, i cui report vengono inviati presso di noi.

A completamento delle attività di controllo interne, per una verifica rigorosa della qualità dei prodotti Atlantis®, Target® e Keyone® si avvalgono inoltre dell'esperienza e dei servizi del Centro Ricerche e Prove Tessili RITEX®.

RITEX® - laboratorio accreditato dal SINAL

- è da sempre specializzato nel controllo della qualità dei materiali della filiera tessile (filati, fibre, tessuti e capi confezionati, non tessuti) e materiali affini (pelle e cuoio, polimeri, cellulosa), supportando le aziende del settore anche nelle attività di ricerca ed innovazione.

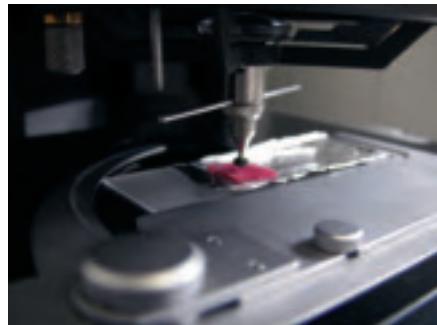

**In particolare, ci avvaliamo della collaborazione di RITEX® per effettuare controlli periodici sulla merce in arrivo, quali ad esempio:**

- **caratteristiche di costruzione dei tessuti  
(composizione fibrosa, titoli, riduzioni, armature)**
- **prestazioni di solidità dei colori in diverse condizioni di utilizzo (solidità del colore alla luce, al lavaggio, ai sudori)**
- **analisi chimiche per la verifica della presenza di sostanze potenzialmente pericolose per la salute dell'uomo (formaldeide, coloranti allergenici, valori anomali di pH dell'estratto acquoso)**

La collaborazione tra TARGET® ATLANTIS®, KEYONE® e RITEX® continua ancora con analisi mirate per ricerche di innovazione di prodotto e per indagini legate ad eventuali problematiche segnalate dalla clientela.

Tutto ciò ci consente di aderire al programma

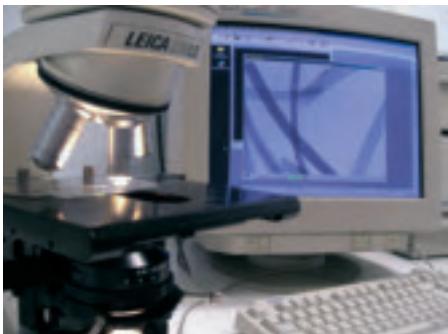

**“DALLA TUA PARTE” di Ritex.**

Our collection is based on qualitative principles to supply products of a high quality always meeting the clients expectations, in all aspects in terms of colour, materials, and moreover in terms of details. To guarantee all of this we are willing to put our know-how at your disposition, the valuations of clients, the control of quality from the place of origin and on the arrival of the goods. The continual collaboration with the suppliers and our constant presence through them generates statistical controls on the goods during the departure phase, a report which will be sent to you by us.

Atlantis®, Target® e Keyone® does important laboratory tests on the products, giving the products a laboratory certification from the RITEX® Research and Textile Testing Centre which are carried out periodically.

RITEX® is an accredited laboratory by SINAL, specialized in research and innovation in the field of textiles, which normally works for the the most important ready-to-wear clothing manufauers analysing and researching the textile materials (the yarns, fibres, material, ready-to-wear pieces, non-materials, etc.) and similiar (leather, plastic, polymers cellolose, etc.) analysing the products in terms of what chemical, colourants etc. have been used to arrive at the finished article and more such as washing and dry cleaning tests notwithstanding mentioning ecological test on Ecolabel.

**We uses RITEX® as an auxiliary for a series of periodic controls on in coming goods: to verify the composition, textile labelling, warp and weft, the color solidness and resistant to acid sweat and alcaline, to light and to washing, to the presence of damaging dispered colorants and other damaging substances to the PH surface.**

The collaboration with RITEX® continues even to analysis aimed at innovative research towards the product to verify problems signalled by the client, to comparatively study the performance of different materials (transpiration, sweat absorption capacity, drying speed). This allows us to participate in the Ritex program "**ON YOUR SIDE**".
